

# Group page

06/29/2023 10:43 am PDT

Groups pages contain everything new members need to join a group. It houses all the group's key information, including the group name, photo, logo, group reps members, AND all your upcoming events. Here's an example:

<https://heylo.group/sfbv>

Unlike static web pages, upcoming [events](#) on your Heylo group page are automatically refreshed as the group changes. Group pages remove the need to constantly update a bio or website with every new event or change to the group.

Specifically, group pages contain:

1. Name
2. Logo
3. Photo
4. Description
5. Member count
6. Member requirements
7. [Group reps](#)
8. Upcoming events

Any admin of the group can edit the group page at any time by heading to the group tab, and then "Group Appearance."
