

Devices: iOS, Android, Web

09/08/2023 3:30 pm PDT

Heylo is available on all devices - iOS app, Android app, mobile web, iPad browser, and desktop browser. All browser types are supported as well, such as Google Chrome, Apple Safari, Firefox, etc.

All interactions are automatically synced across all platforms. For example, an [event](#) created on a computer is immediately editable from the phone app.
