

Multiple groups

06/25/2023 12:20 pm PDT

There is no limit to the number of groups on Heylo. Anyone can belong to multiple groups, and anyone can create multiple groups.

If there are multiple groups within the same organization, like chapters, get in touch with the Heylo team about our organizational tools. We can help you set up organization-level features such as [waivers](#), [memberships](#), and [pages](#) to streamline the organization across multiple chapters.
