

# Admins

09/25/2023 10:27 am PDT

On Heylo, all groups have one default role, Admin.

Admins have ultimate control over the group. They can manage [members](#), [topics](#), [events](#), and [benefits](#), and collect member [payments](#). They can also grant additional [roles](#) in the group.

There are no limits on the number of admins in a group.
