

Hosts

06/25/2023 12:26 pm PDT

Events on Heylo have hosts. Hosts organize the event and serve as the primary point of contact for attendees. Hosts possess specific event-related controls that set them apart from attendees. Hosts have admin privileges over the event - they can edit, cancel, delete or [take attendance](#). Their profiles are prominently displayed on the event to recognize their role. Events can have as many hosts as you'd like, and events can also have zero hosts as well. Hosts can be, but do not need to be, group [admins](#).
