

Registrations and RSVPs

11/14/2023 2:06 pm PST

Customize registrations and add multiple registration options for [events](#). Some events require more than a "Going" response!

Custom registrations

Event [hosts](#) and [admins](#) can tailor the action word as best for their group. The default is "Going." A description can also be added.

Multiple registrations

Add additional registrations to organize members in advance. Event hosts and admins can set as many different registrations as they would like, and members can select the one that best fits them.

In addition, members can sign up as "Interested" to join the [event chat](#) but not register. Or they can select "Not going".

Visibility

When a member registers for the event, other members can see it. Visible registrations build camaraderie before the event, encourage sign-ups, reduce no-shows, and help members connect with each other.

Changing registration

Members can change their sign-up to an event by selecting the arrow button at the bottom of an individual event. Unless it is a paid event, there are no penalties for adjusting.
