

Video link

06/25/2023 12:43 pm PDT

Every event on Heylo can have a video link. The link is only visible to attendees 30 minutes before the event starts, and is not accessible to attendees after the event ends. Hiding the link helps keep it secure for future use and reduces spammers. Furthermore, if a host needs to change a link before an event, they can do so without attendee confusion on which link is correct.
