

Photo album

12/28/2023 12:13 pm PST

Photos and videos are automatically collected into a group album. Whether photos and videos are contributed through a **topic** or **event chat**, photos are accumulated into the album automatically. Photos sent in **private topics** and direct chats are not included.

All **members** in the group can access the photos. Photos and videos can be saved locally, whether from a computer or phone. Admins can delete any photo from the album.

The album is sorted by recency and lives on the group tab.
